ANTI-FRAUD INITIATIVES

- ▶ **Access to SIRIS®** – Effectively share critical information about suspected fraudulent activity using NHCAA's web-based database powered by LexisNexis® Risk Solutions.
- ▶ **Information-Sharing Conference Calls** – Each Government Liaison agency can register up to 5 connections to participate in monthly *secure* conference calls providing a platform to discuss specific fraud cases with industry peers.
- ▶ **Requests for Investigation Assistance (RIAs)** – Law enforcement agencies and prosecutors can submit requests concerning specific fraud cases to our health insurer members. Aside from being a great networking opportunity, this process is a quick and efficient way to facilitate case development and identify additional victims and perpetrators of fraud.
- ▶ **NHCAA Fraud Briefs** – Summaries that describe a scheme related to a specific health care service. These briefs give investigators a quick summary to gain an understanding of an issue, comprehend the gravity of the situation, and use it as a reference or guideline for conducting their own investigation.
- ▶ **Anti-Fraud Initiatives Publications** – NHCAA offers three information-sharing type publications: (1) *Inside SIRIS®*, a monthly update from SIRIS®, (2) *The Compass*, a quarterly health care fraud report, and (3) our *Annual Fraud Trends Report* that highlights fraud trends identified by NHCAA members.
- ▶ **NHCAA & HFPP InfoShare Sessions** – In 2023, NHCAA and HFPP will co-host two InfoShare sessions. This is another great opportunity to discuss investigations and emerging fraud schemes along with the opportunity for networking.
