**YOUR TRAINING
ORGANIZED &
OPTIMIZED**

NHCAA Learn offers members a single location to access programs and on-demand education. Learn at your own pace, earn credits, and choose from a growing library of on-demand training. **Learn** supports learning when travel and training budgets are limited.

Among the featured offerings are **Monthly On-Demand Trainings** (formerly webinars). Released 10 times a year, they're designed for shared learning on fraud schemes, investigative practices, and analytics. They build on our legacy webinar format while continuing NHCAA's tradition of delivering timely, accessible education for members.
